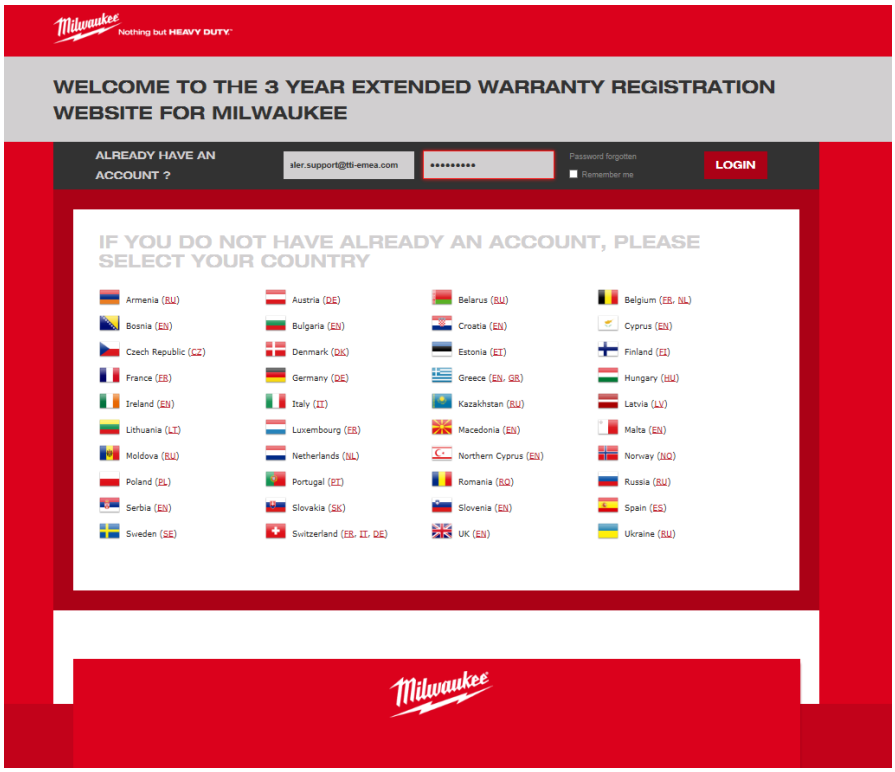
When logged into your E-mail account click on the link marked **"VALIDATE MY REGISTRATION"**
YOU CANNOT LOG INTO YOUR ACCOUNT UNTIL THIS HAS BEEN DONE

GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY



You can now log into your account to register your tool.
PLEASE NOTE BY CREATING AN ACCOUNT DOES NOT MEAN YOUR TOOLS ARE AUTOMATLICLY REGISTERED FOR THE EXTENDED WARRANTY

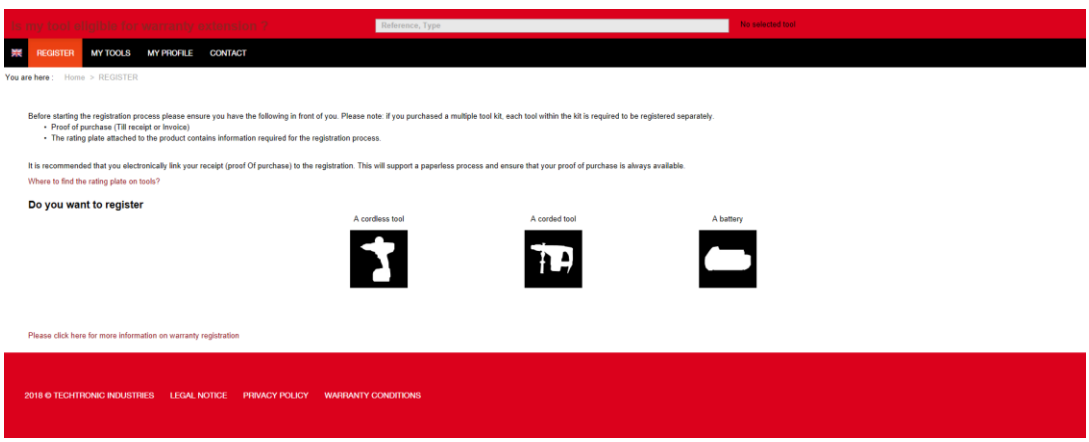
Before starting to register your product(s) you will need to ensure that you have the following information infront of you:

Tool(s)/battery(s) that are to be registered
Proof of purchase (till receipt or invoice)

When you have logged into your account you will see the following screen

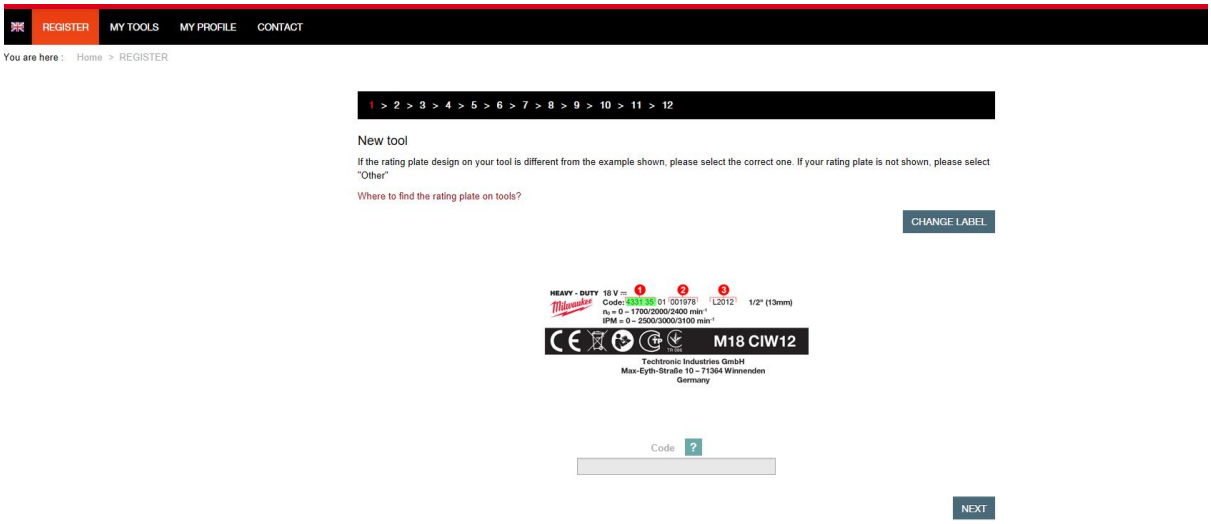
Click on the option that your tool belongs too.

The screen below will then load up.

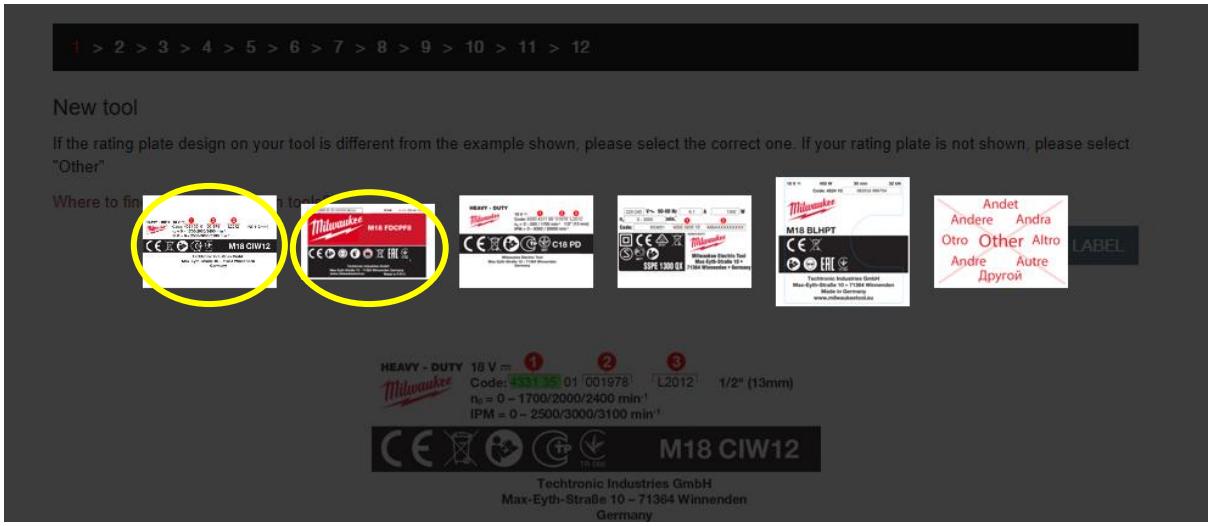


GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY

STEP1



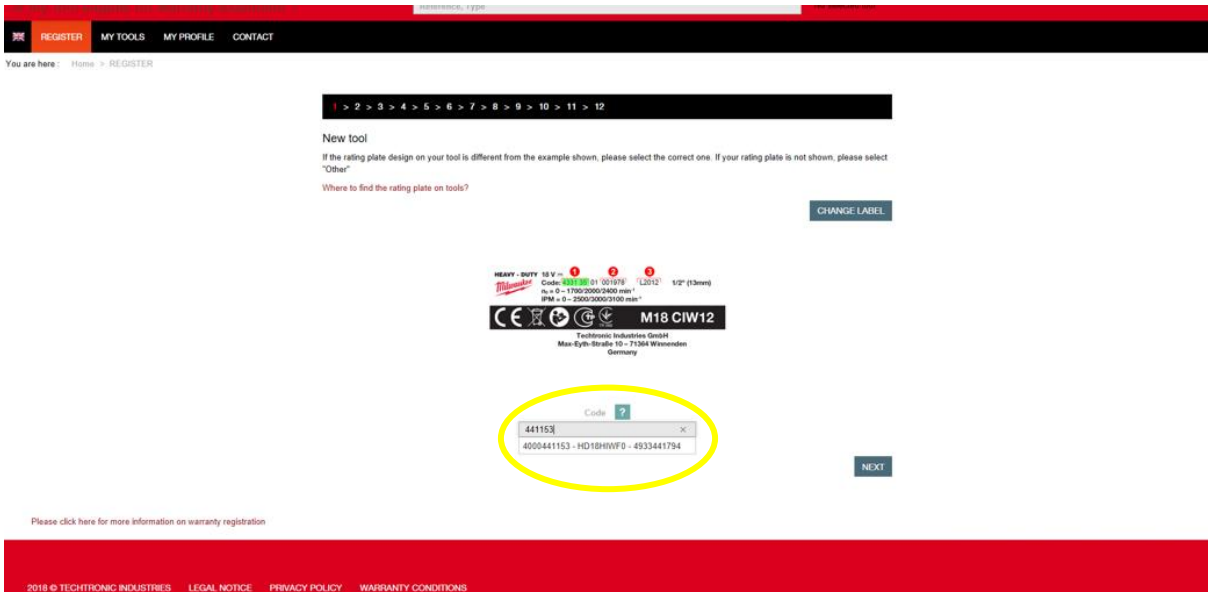
When registering the tool you will firstly need to select the style of Rating Plate sticker you have on your tool.
The easiest way to see which version you have, is to look at the style of the long code number on your rating plate compared to the options you are given.



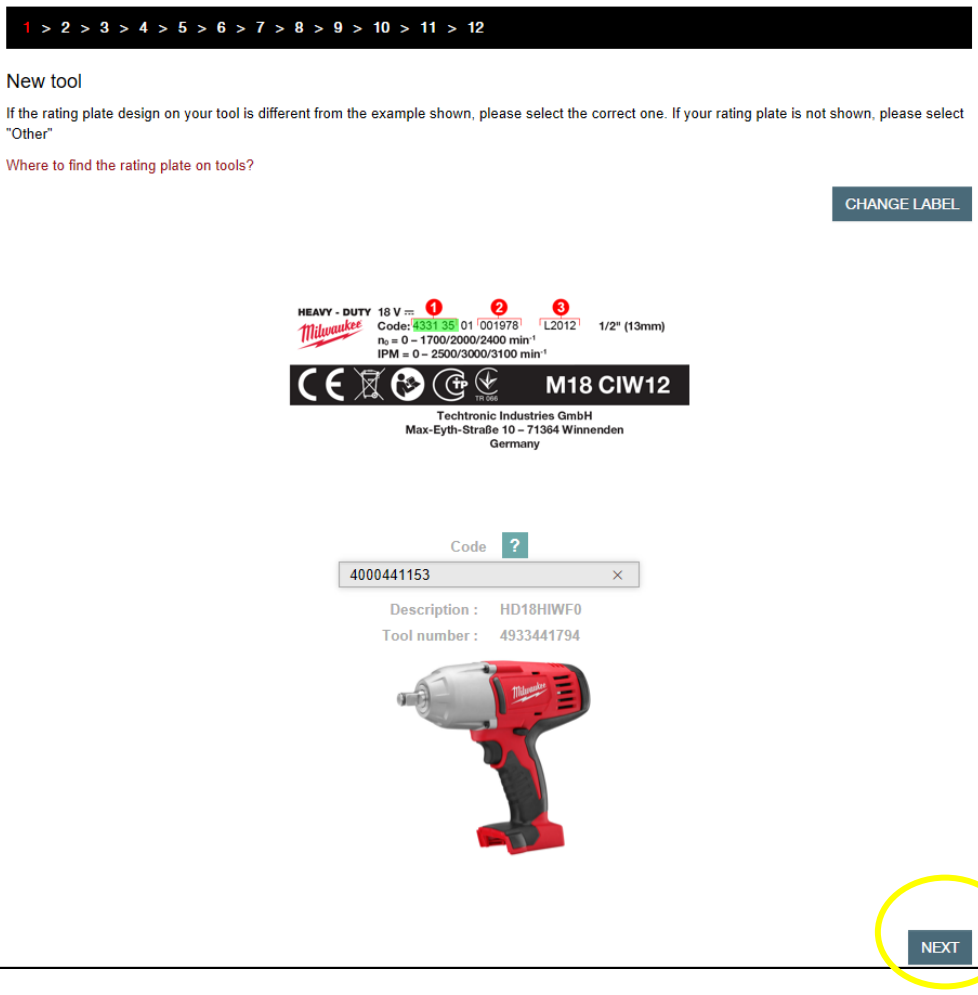
The 1st and 2nd options are the two most common Rating Plate Stickers you will find as they are the most recent versions used.
IF THE WRONG VERSION HAS BEEN SELECTED THE CODES THAT YOU WILL ENTER WILL NOT BE ACCEPTED

When entering the 1st set of numbers from the long code number, a drop down box will appear showing you different versions of the tool you are registering. You can choose any of these options as you are just clicking on the basic tool you have.
Once you have clicked on an option you will need to click on the validate button
IF YOU DO NOT CLICK ON ONE OF THE OPTIONS, AND JUST CLICK THE VALIDATE BUTTON IT WILL NOT REGISTER.

GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY



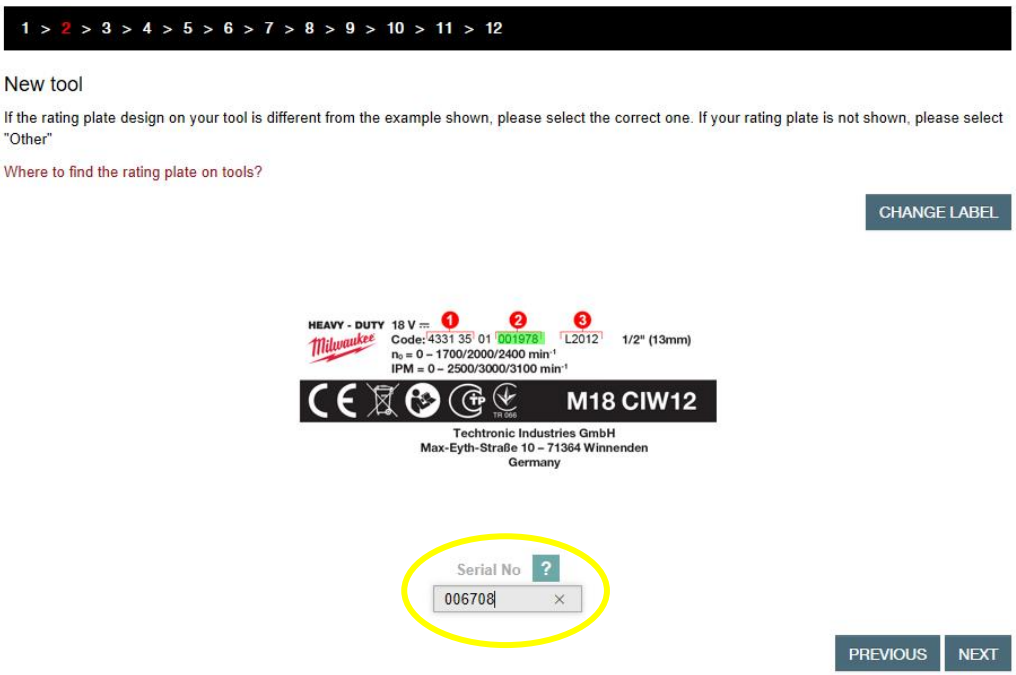
Once you have clicked on an option you will need to click on the “NEXT” button



GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY

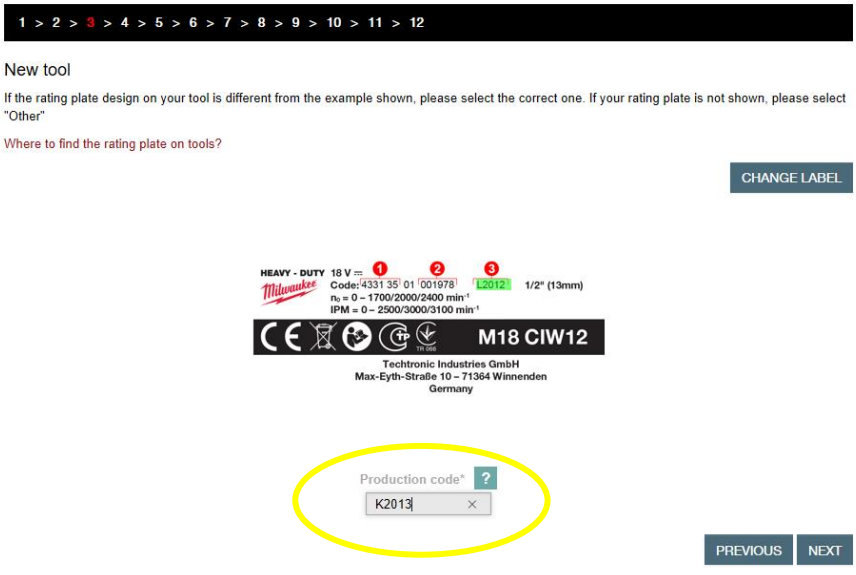
STEP 2

The 2nd step is to enter the 5 or 6 digit serial number. The amount of digits you enter will depend on the style of Rating Plate Sticker you have.



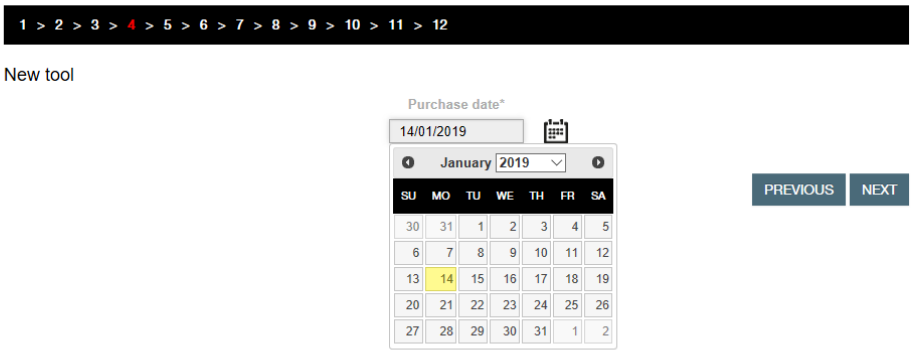
STEP 3

The 3rd step is to enter the production code from the tool. The production is at the end of the long code number. It is made up of a letter and a year.
When entered and you have clicked on the “NEXT” button.



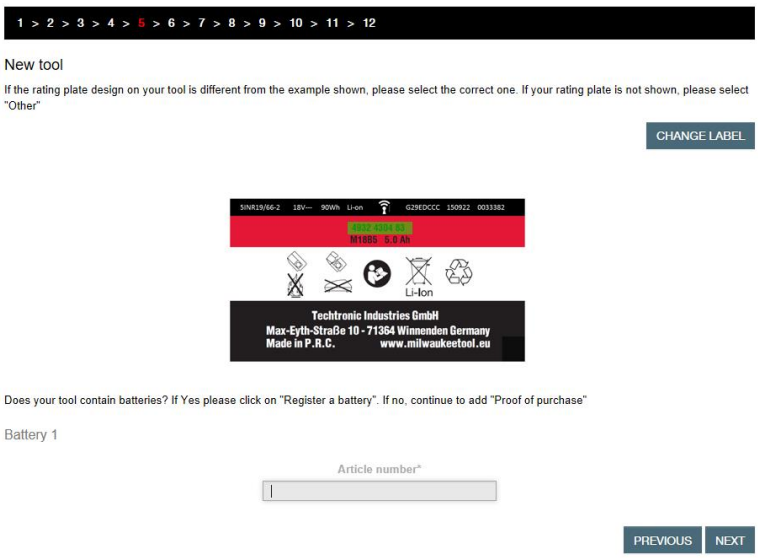
GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY

STEP 4



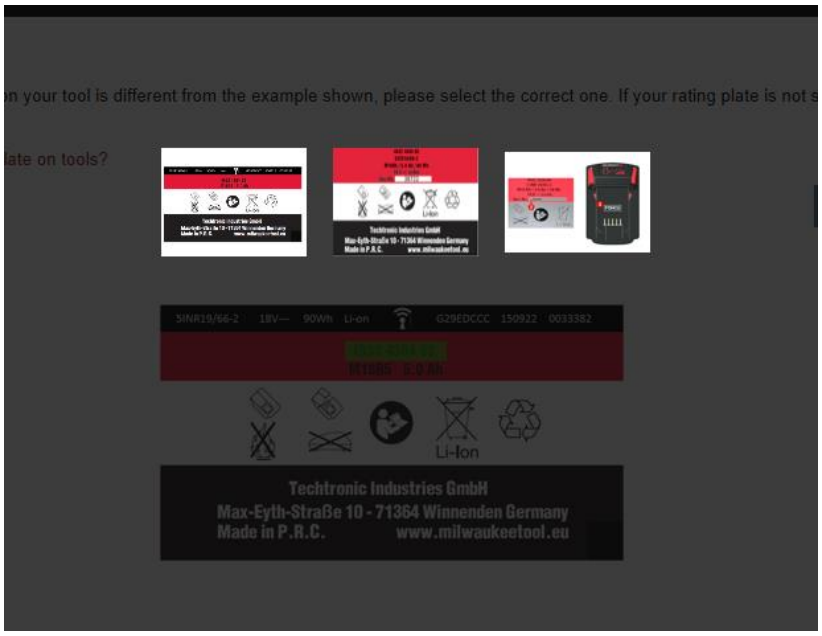
After clicking on the purchase date and validating it, the option to register a battery will appear. If your tool was bought as a "**naked**" version (no battery or charger) you can ignore it and click the "NEXT" button.
If you have a battery(s) to register, click on the option. Once clicked on the following will be displayed for you.

STEP 5



Like with the rating plate stickers on the tools you will need to click on the style of rating plate sticker you have on your battery.

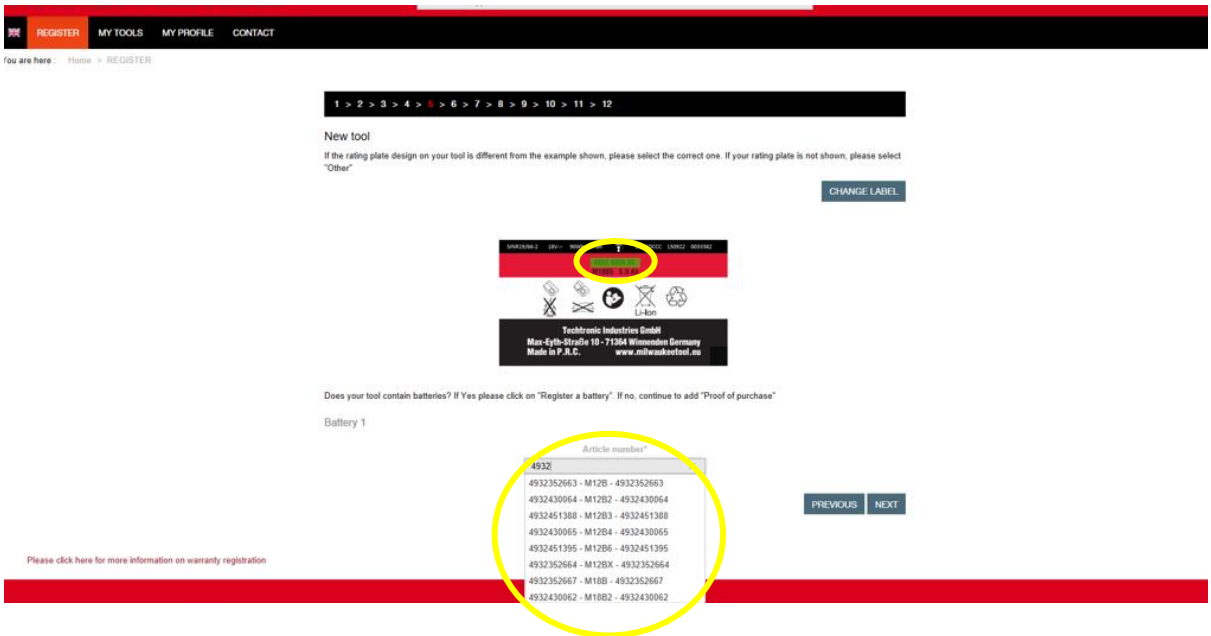
GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY



The 1st 2nd options you are shown are the most current versions, the 3rd option is from older batteries.

With the 3rd style of rating plate sticker you may not have a serial number, if this is the case just enter 0000.

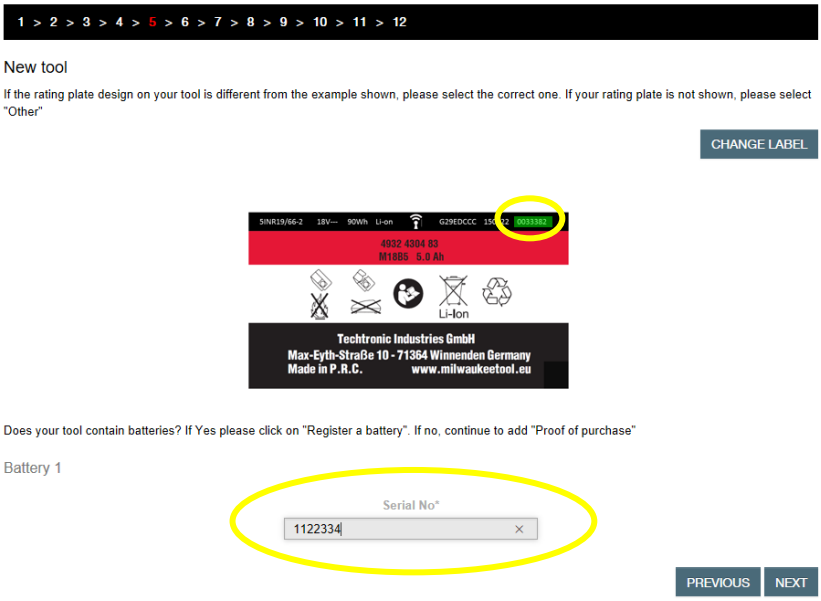
You will first need to enter the Article number which can be found at the top of the rating plate sticker on the battery and will start with 4932. As with the registration process with the tools the codes you will need to enter will be highlighted in green.



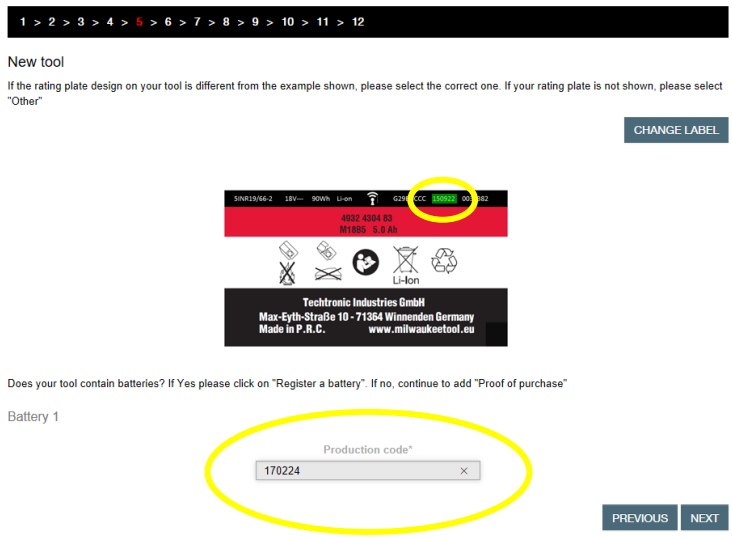
When entering the 4932 number a drop down box will appear, as with the tools click on the battery that you have, and click on “NEXT”.

GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY

After entering the article number you will need to enter the serial number from the battery.



The last detail that needs to be entered from the battery is the Production code.



After entering all of the numbers you will be given the option of registering another battery, if your tool came with 2 batteries, follow the same procedure for registering batteries. If you have no more batteries to register click on the “NEXT” button.

GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY

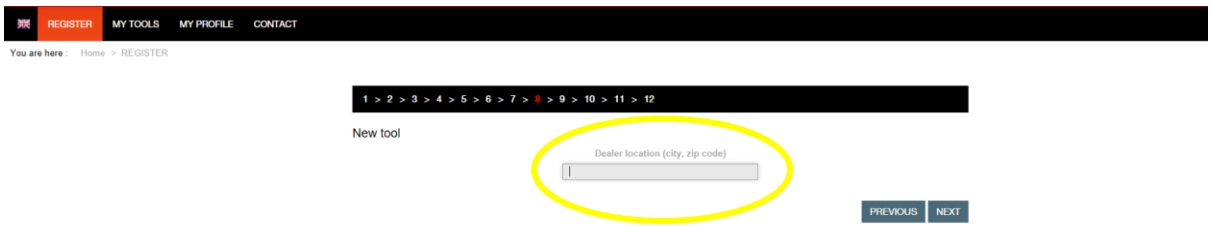
STEP6

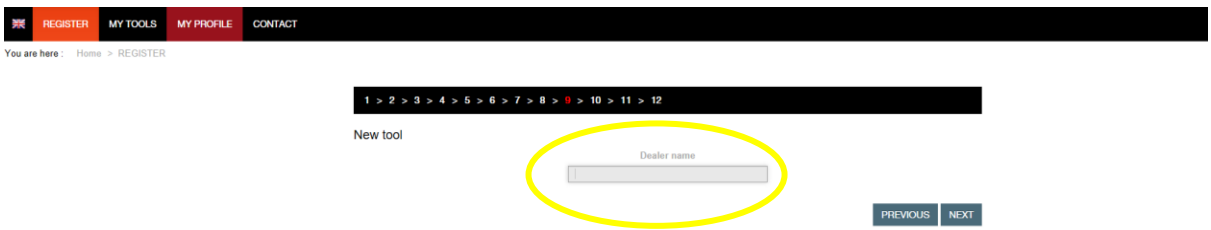
You will then need to attach a copy of your purchase receipt to your registration account. In order to do this you will need to save a copy of the receipt onto your PC's hard drive. To add a copy of the purchase receipt from your PC's hard drive, you will need to select the file using the 'browse' option.

STEP 7

Confirm the country that the Dealer who you bought the tool from is based in

STEP 8 & 9



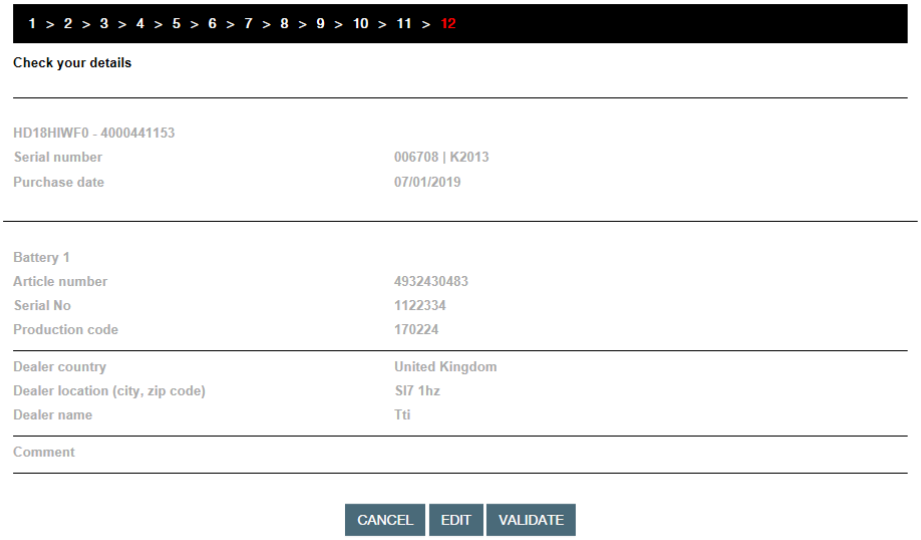


Enter the postcode and the name of the company you bought the item from, then click on the register button.

Steps 10 and 11 ask for "COMMENTS & HIOSTORY OF TOOL" These do not need to be filled in, unless you wish to provide more information about the tool.

GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY

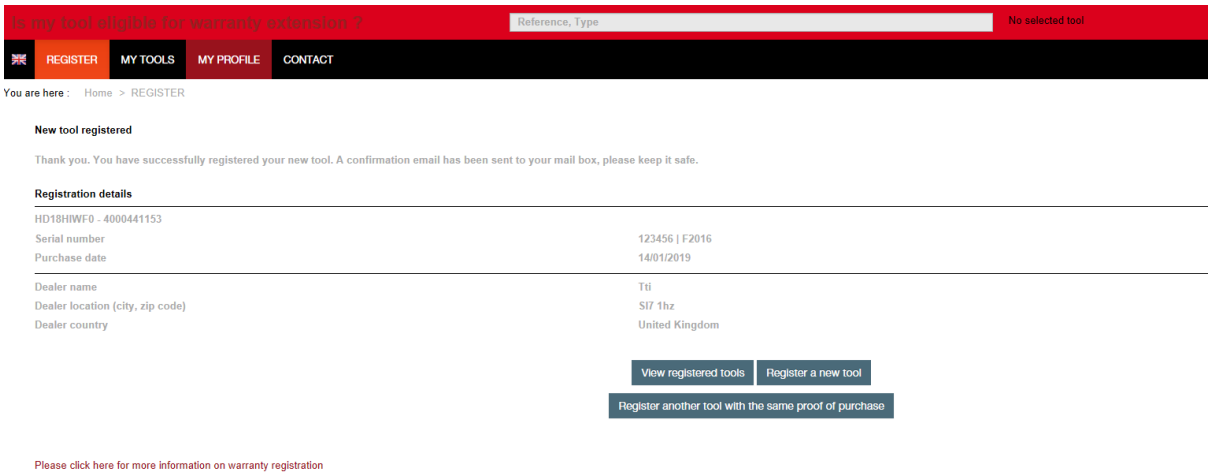
STEP 12



You will be given the chance to confirm all of the details you have entered before finalizing the registration. If anything you have entered is incorrect you will be able to correct it by clicking on the edit button, if everything is correct then click on the validate button.
If you do not click on the validate button the tool will not be registered for the extended warranty.

GUIDE TO REGISTERING MILWAUKEE PRODUCTS FOR EXTENDED WARRANTY

Once you have clicked on the validate button the following screen will appear confirming that the tool has been registered, and that a confirmation email has been sent to your email account.



After the tool has been registered, you will be given the option of registering another tool, another tool with the same proof of purchase (no need to attach the POP or dealer details again), or view the tools you already have registered.
